

# GLOBAL WRAP® CARPENTERS UNION PARTNERSHIP PROGRAM

GLOBAL WRAP® INC.

# PROGRAM BACKGROUND

- **Carpenters Union's New Trade**
- **Global Wrap® and The Carpenters Union Synergy Partnership**

Global Wrap® will train selected journeymen and apprentices to install the containments on scaffolding and buildings. We will have a Global Wrap foreman on every job we are awarded that is a union or prevailing wage project.

# COMPANY PROFILE

- **Global Wrap is the original shrink wrap contractor since 1980**
- **The leader in exterior protection, interior protection, disaster services, shipping and storage**
- **Signatory to the Brotherhood of Carpenters**
- **Woman Business Enterprise**
- **Member of the U.S. Green Building Council**
- **Offices – St. Augustine, FL / Philadelphia, PA**

# WHY GLOBAL WRAP®

No more tarps  
blowing in the  
wind

Add up the  
hidden costs of  
tarp failure, labor,  
new tarps, and  
schedule delays

Fast to install

Withstands  
high winds

Welded  
seams, no  
leakage

Attractive  
Appearance

Professional  
Crews

Global Wrap builds  
for the future and  
appreciates its  
clients

# OUR COMMITMENTS

# EXTERIOR PROTECTION

## - Shrink Wrap Buildings

### Shrink Wrap Buildings Temporary Building Envelopes

- Global Wrap® invented the shrink wrapping of buildings.
- Global Wrap®'s building enclosures can be shrink wrapped in their entirety or level by level.
- Global Wrap®'s 12 mil film allows natural light into the work areas.

# EXTERIOR PROTECTION

## - FleX-Walls® Temporary Curtain Walls

### Temporary Curtain Walls FleX-Walls®

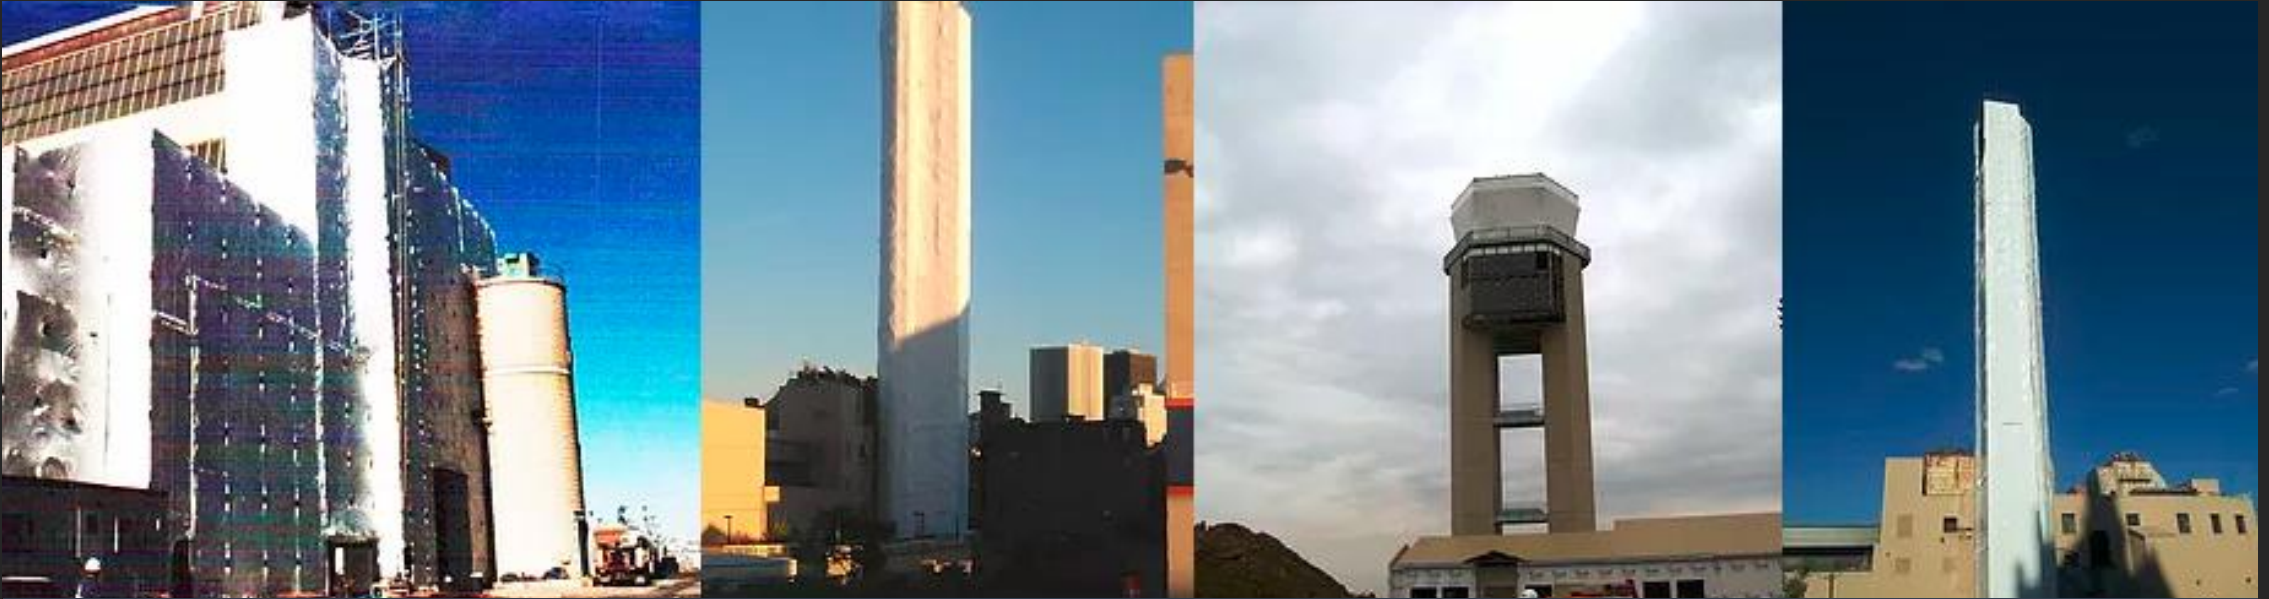

Global Wrap® developed and installed the first temporary FleX-Walls® used for temporary curtain walls, floor by floor.

# EXTERIOR PROTECTION

## - Shrink Wrap Scaffolding

### Shrink Wrap Scaffolding

Global Wrap® introduced the system to shrink wrap scaffolding with its drum-tight, fire retardant, seamless and recyclable film.

# EXTERIOR PROTECTION

## - Roof Decks

### Shrink Wrap Roof Decks

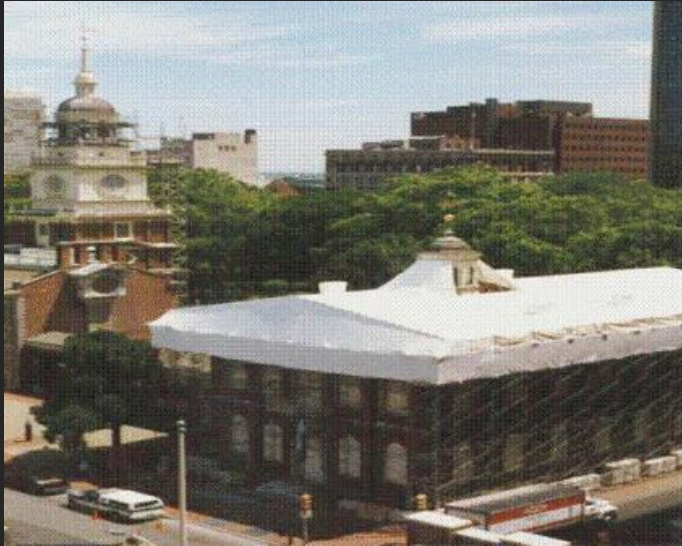

- New Construction
- Disaster Roof Containments

# Magazine

Saraphin says, "Over the last three years I have seen people who have tried to compete with Global Wrap by copying our methods, working on some very high profile union sites, claiming to be a specialty trade... when in fact the Carpenters should be doing this work with Global Wrap."

Saraphin is convinced that the benefits of using union carpenters include their safety training, education, responsibility to the union, and knowledge with power tools and their applications. People working out of pickup trucks don't offer the contractor those qualities and the low price tag can become very costly with only one price cut.

Together, Global Wrap and the Carpenters Union are building this new trade together.
